THE SEIZURE OF SEALERS.

Captain Hooper, of the Corwin, Reports the Taking of the Ethel.

ANOTHER PENSION OFFICE SCANDAL.

A Laborer and a Former Laborer Arrested for Stealing Property of the Department-Washington Notes.

Washington, D. C., August 18,-Captain Hooper, commanding the revenue steamer Corwin, reports to the Treasury Department under date of Unalaska, July 31, 1831, that while cruising in the vicinity of Pribyloff islands, July 28th, he seized the schooner Ethel, hailing from San Diego, Cal., for violation of the President's proclamation of June 15, 1891, in regard to sealing in Behring sea. He says he towed the vessel to Unalaska and turned her over to the senior naval officer present on the 30th. The Ethel, he says, sailed from San Francisco May 2d on a hunting and fishing voyage, and entered Behring sea July 3d, and rancisco May 2d on a Bunting and Baning voyage, and entered Behring sea July 3d, and appears to have remained near the seal islands until seized. Continuous thick fogs prevented her being seen before. The master admitted the firing of guns from his vessel, but said that some of the crew had merely fired at a tin can for amusement. He expressed surprise when told of his proximity to the seal islands, and said he thought he was forty or fitty miles from them. When seized there were found on the Ethel 181 salted fur seal-skins, 29 fresh fur sealskins, 11 unborn pup sealskins, 2 sea otter skins, 1 hair sealskin, and 200 pounds of whalebone. The vessel hada complete sealing outfit, with boats, guns, ammunition, salt, etc. She was surrounded by seals at the time. So plentiful and fearless were they, said Captain Hooper, that several might have been killed from the Corwin's deck while lying near the Ethel.

Captain Hooper also reports the seizure of a quantity of liquor on the steamer Lakmo, chartered by the N. A. Trading Company, and a quantity of quass (Aleut whisky) at livalests are read a first the seizure of a plantic seal of the seal of the

and a quantity of quass (Aleut whisky) at Unalaska, enough, he said, to intoxicate the entire settlement. He says he will report the fact to the United States attorney at Sitka for such action as may be found necessary. At the date of his report the United States steamship Mohican, Alert and Thetis, H. B. M. S. Porpoise and Nymph and the steamer Alki were at Unalaska.

ANOTHER PENSION OFFICER SLANDERED. Detective Raff and Special-Agent Brooks, of the Pension office, served a search warrant on Erastus D. Adams, a laborer in the Pension Office, to-day, and arrested him and recovered a number of articles alleged to have been nurloined from the office.

SEVERAL MILLIONS INVOLVED. An Important Suit Begun Against the Go-

gebic Development Company.

MILWAUKEE, WIS., August 18 .- An impor-

tant suit, involving several million dollars, has been begun in the circuit court of the United States for the Western district of Wisconsin by the American Loan and Trust Company against the Gogebic Development Company. In 1887 the defendant executed to the plaintiff a trust deed on a large amount of valuable mining property owned by it in Ashland county to secure the payment of 2,000 of its bonds of \$1,000 each, amounting in all to \$2,000,000. This mortgage provided for the payment of 6 per cent, interest semi-annually and the principal in 1997, and also in case of default for six months in the payment of any installment and on demand of the owners of the bonds to the amount of a tleast \$160,000 the mortgage should declare the whole amount of principal and interest due and payable and proceed to foreclose. The complainant alleges that the defendant sold the whole \$2,000,000 of bonds at par and that there has been such default and demand. The answer admits the execution of the bonds amounting to \$500,000, were sold and negotiated by defendant, but denies that the rest of the bonds were sold. LATHAM KNOCKED HIM OUT. Cincinnati's Captain Whips a Clevelander on

the Diamond. CINCINNATI, OHIO, August 18. DISGRACEFUL row occurred in the eighth inning of this afternoon's Cincinnati-Cleve-

Cincinnati-Cleve-land game. The rank umpiring by Mr. Powers had made the players on both teams rather heated, and when Captain Latham, of Cincinnati, stepped in the way of McAleer, of Cleveland, as he was rounding as he was rounding third in an effort to

get home, the Clevelander hit the Cincinnati man in the ribs and kept on running. Latham, however, again crossed the path of McAleer, which so incensed the latter that he gave the third-baseman two vicious kicks on the legs. At this Captain Latham drew back his right, let it go with a rush and caught McAleer aquarely on the jaw, knocking him on his back, where he lay like a log. The Cleveland men at this juncture came rushing toward Third Easeman Latham to avenge their comrades, but Latham seemed satisfied with what he had done and backed away. By this time the police had got to the battle-ground, where a great crowd had gathered, and drove them back to their seats. It was a noticeable fact that but one member of the Cincinnati club—George Smith—went to the get home, the Clevelander hit the Cincinnati Cincinnati club—George Smith—went to the aid of Latham. The excitement of the game was due chiefly to the decisions of Umpire Powers, who was roundly hissed by the crowd of spectators and the players of both teams.

I have received with satisfaction the cordial welcoming words of the Governor of this great State. It is very gratifying for me, as a citizen and office-holder of the United States. It is a pleasure for me to come and say that all matters of difference which have ever existed in the different parts of the country have been obliterated and all the people united in a common brotherhood. This Empire State has great wealth and resources that reach out all over the country. There has been a time when a cry was raised against New York being an existing creditor. existing creditor.

FINANCES AND THE CROPS.

'These narrow views will not prevail in the enterprising neighborhood or where the States are united in brotherhood. The Gov-ernment is pledged to maintain the money at par for every one hundred cents on a dollar, whether paper or com, coin stamped being as good as any other dollar. We should ayoid the experience of a southern country. When a nation has an irredeemable currency, then the men from your shops who turn out the surplus and the farmers have the turn out the surplus and the tarmers have the greatest interest in receiving one hundred cents on a dollar. We have this year an extraordinary agricultural crop. This crop is worth a billion dollars over that of last year. Then we find that the Government of Russia has prohibited the exportation of rye. France and Germany will al. or every bushed of wheat on hand in those countries. Whatever complaints there may have been in the past. complaints there may have been in the past, this year there will be a smile over every agriculturist's face in the country. The granaries of the country are unable to hold the grain and this will bring back the lost gold of the past years. It should be a happy people, for all conditions are favorable and order should prevail; and above all there should be patriotsm and an adherence to Constitution and

THE RAIN APPLAUDS. The rain had begun to fall as the President ceased talking. As he descended to his carriage the people, despite the efforts of the police, rushed towards him, grabbing his hands and waving their hats and handkerchiefs. He

BENNINGTON BATTLE MONUMENT. A Number of Prominent Men Arrive to Attend the Dedication Exercises.

BENNINGTON, Vr., August 18 .- Dark clouds gathered over Bennington this morning, and short showers early in the day were the forerunners of an active rain-storm, which began shortly after I o'clock this afternoon. It cast a gloom over the distinguished members of the executive committee of the Bennington buttle monument, as it threatened to inter-fere seriously with the dedication exercises

Lake Erie Strike.

Findlay, O., August 18.—The strike, which was inaugurated on the Lake Eric and Western railroad yesterday, has reached formidable proportions. All freight trains have been side tracked wherever they happened to be at the time the orders to strike were received. Over three hundred miles of road are tied up. In this city alone five freight trains have been abandoned.

DISAPPOINTMENT IN BERLIN.

Failure of Negotiations With Switzerland for

a League With Austria. (By Cable to the Times.)

London, August 18 .- The failure of negotiations with Switzerland for a commercial league with Austria and Germany has produced much disappointment in Berlin, where it is felt that the failure is due to the evident duced much disappointment in Berlin, where it is felt that the failure is due to the evident determination of the majority of the Swiss to maintain a neutral position in the existing differences and coming wars of Europe. The proposition from the first impressed the people of Switzerland unfavorably. They have a traditional repugnance to close alimance of any kind with Austria and they fear the power of Germany. France, too, has many friends among the Swiss, and all these stood out against commercial union with the two great German powers. The Swiss Federal Government has got out of the matter as easily as possible, conscious that a referdum would result in the defeat of the proposition and discredit of the government supporting it. It is expected that Austria and Germany will now confine themselves to confirming and arranging the details of their mutual agreement. Hungary has an abundant harvest and will be able to apare large quantities of grain as soon as the treaty between the two countries comes into operation. tween the two countries comes into operation.

FOR LITTLE BARBARA'S MURDER. Hanging of a Criminal Who Protested He Was Innocent.

hanged here this morning. Turner protested his innocence to the last.

On June 6th of the present year Barbara Waterhouse, a child only five years of axe, the daughter of a quarryman living at Reeds, mysterously disappeared from her home and was not found until midnight on June 10th. At that hour a policeman found little Barbara wrapped in a bundle and lying in a street close to the town hall. The child's abdomen had been ripped open so that the intestines protruded and the legs and arms had almost been severed from the body. In addition the child's limbs were covered with deep gashes.

It was evident that the child's clothes had been replaced on its body after the murder had been committed. William Turner, the

man hanged to-day, was subsequently arrested and convicted of the crime.

London, August 18.—At Chelmsford this morning Sadler, the man who stabled and killed the husband of his paramour, suffered the death penalty for his crime.

Wheat Instead of Rye. (By Cable to The Times.)

Hamburg, August 18.—The Correspondent in a semi-official article states that the intention of the Government to use wheat instead of rye for the army is an important advance in its deliberate policy to make Germany more independent than hitherto of foreign countries in regard to her economic interests. Although the present prohibition of rye exports by Russia may have been promoted by the fact of a bad harvest, it is not impossible that at some future date political reasons that at some future date political reasons might dictate similar reasons on the part of the Czar's Government.

Foreign Notes. There is great activity among the shippers of tye in Russia. Eight thousand tons have left there in eight days. It is reported that further large shipments will be made on orders from the German Government.

The French delegates yesterday in the International Labor Congress fervently supported the resolution pledging the workingmen of all countries not to support candidates for office unless they were prepared to advocate legislation demanded by workingmen.

The National Zeiting, of Berlin, says that the Government merchants who in April made heavy advances to Russian growers of rye to be delivered in September will suffer enormous losses. The situation is grave. C. H. Grosvenor, of the Chicago Fair Commission, has arrived at Zurich to explain to the merchants of the city and vicinity the advantages of exhibiting at the Fair. He reports having received satisfactory assurances from the merchants and Government officials of Switzerland.

Switzerland, The committee on legislation in the International Labor Congress at Brussells has reported in favor of pledging the workmen of all countries not to support any candidates for public position unless they are prepared to advocate reforms in the interests of labor and to support legislation demanded by workingmen.

men. The Prince of Wales started for Hamburg yesterday. He will remain there until the beginning of September, when he will leave for Copenhagen to meet the Princess and join the family party assembled there, which will include the Czar and Czarina. The latter are about starting for Copenhagen now on a visit to the Czarina's royal parents.

Alfred Symonis, a Belgian senator, who is a large cloth manufacturer at Verviers, will be named by the Belgian Government com-missioner to the Unicago Exhibition. Six Americans were in attendance at the Socialis-tic Congress. Among them were Mr. Hoch, representing the Chicago Socialists and Mr. Kahn, representing 30,000 Jew workingmen in New York.

A St. Petersburg dispatch states that the Czar at first opposed the rye ukase, and, in fact, rejected the measure as first proposed, but finally approved it in its modified form, namely, as affecting only rye, rye meal, rye flour and rye bran: in other words the product actually consumed by the Russian peasants and their cattle. The statement that the measure is a political one is strenuously denied.

The London Times, predicting the effects of the imperial ukase relating to the export of rye, says that it is estimated that the central European purchases will be equivalent to eight million quarters of rye in wheat, corn and potatoes. The chief gainers, the Times says will be the United States, though England and India will have their share. A terrible collision occurred yesterday be-tween Ostrowo and Loswitz, in Prussian Hol-land. Two passenger trains collided, both going at full speed. Russia can furnish and muster 782 squadrons, while Austria-Hungary can muster only 341 squadrons, Russia continues to keep a large force of cavalry and infantry near the Austrian frontier, as if preparing for a sudden invasion. This disturbs the Galician Poles, who greatly prefer the rule of Austria to that of Russia and are among the best soldiers in the Austrian army. A Vienna dispatch says that some appre-
